BRACELET SIZE GUIDE · WOMEN

# FIND YOUR PERFECT FIT

## SOLID BRACELETS

For our solid, oval-shaped bracelets with a clasp. Measure your wrist snugly, just above the wrist bone, without pulling the tape too tightly. Do not add extra centimetres; use the approximate wrist circumference below.

| Size | Approx. wrist circumference | Internal dimensions |
|---|---|---|
| XS | 14–15 cm | 54 × 44 mm |
| S | 15–16 cm | 56 × 46 mm |
| M | 16–17 cm | 58 × 48 mm |
| L | 17–18 cm | 60 × 50 mm |

## HOW TO FIND YOUR SIZE

Wrap a flexible measuring tape around your wrist just above the wrist bone. Keep it close to your skin without pulling too tightly. If you do not have a measuring tape, use a piece of string and measure it against a ruler.

Compare your measurement with the chart above. If you are between sizes, consider whether you prefer a closer or more relaxed fit.

*Measurements and recommended wrist ranges are approximate. Fit may vary depending on wrist shape, bracelet design and personal preference.*
